The damline of PIEWICA is known the world over. but there is also another. albeit smaller. P-One at Janów Podlaski that has rendered tremendous services for the Arabian breed. And PARIMALA is lucky to trace directly to one of the most significant broodmares in the history of Polish breeding, the immortal PARMA.

Bom at Tersk. PARMA enriched Polish breeding with Egyptian influence via her sire ASWAN and grandson NAZEER. gifting the breed with an incredible number of 21 foals. Most importantly these included as many as five international champions and chief sires of considerable merit: European & Polish National Reserve Champion PARTNER. World Cup & Polish National Champion. as well as Race Horse of the Year PAMIR. German National Reserve Champion PASAT, Brazilian National Champion POLONEZ and Polish National. Swedish National Champion and World Reserve Champion PARYS.

On the spear side of Parimala's pedigree is POLON - a maternal brother to Platinum World Champion PIANISSIMA. His dam PIANOSA produced just four foals before her untimely death. making Polon an incredible reservoir of a priced gene pool.
